

DARIAH-DE Repository

Organisational Infrastructure

...documents mission, organisational infrastructure, and long-term preservation issues as well as the integration of the designated community of the DARIAH-DE Repository.

Data Policies & Collection Management

...deals with collection management and preservation policies, data quality and re-use, and ethical and disciplinary norms.

Digital Object Management

...gives an overview about the main technologies and procedures used for an appropriate data management. Import and publish workflows are described and related to the repository architecture of the DARIAH-DE Repository.

Technical Documentation

Under <http://repository.de.dariah.eu/doc/services/> you can find the DARIAH-DE Repository technical and API documentation that is maintained with each service's source code.
