

1 Content Types

Here is a table of content types available from the TextGridLab with all our own plugins installed.

	MIME Type	Name	Filename Extension	Eclipse Content Type	Contributing Plugin
	text/linkeditorlinkedfile	Text Image Link Object	tgl	info.textgrid.lab.linkeditor.linkedfile	info.textgrid.lab.linkeditor.rcp_linkeditor
	image/jpeg	JPEG image	jpg	null	info.textgrid.lab.linkeditor.rcp_linkeditor
	image/tiff	TIFF image	tiff	null	info.textgrid.lab.linkeditor.rcp_linkeditor
	image/png	PNG image	png	null	info.textgrid.lab.linkeditor.rcp_linkeditor
	image/gif	GIF image	gif	null	info.textgrid.lab.linkeditor.rcp_linkeditor
	application/xml-dtd	DTD	dtd	org.eclipse.wst.dtd.core.dtdsource	info.textgrid.lab.xmleditor.mpeditor
	text/xml	XML Document	xml	org.eclipse.core.runtime.xml	info.textgrid.lab.xmleditor.mpeditor
	text/collation-set+xml	Collation Set	coll	info.textgrid.lab.collatex.collation-set	info.textgrid.lab.collatex
	text/collation-equivs+xml	Collation Equivalences	equiv	info.textgrid.lab.collatex.equivalences	info.textgrid.lab.collatex
	text/vnd.gcml+tei+xml	Gloss Commentary Document	gcml	info.textgrid.lab.glosses.gcml	info.textgrid.lab.glosses
	text/tg.glosscontrol+tg.aggregation+xml	Gloss Aggregation	gla	info.textgrid.lab.core.aggregations.ui.aggregationeditor	info.textgrid.lab.glosses
	text/mei+xml	MEI Notesheet	mei	info.textgrid.lab.noteeditor.mei	info.textgrid.lab.noteeditor_restruc
	text/tg.aggregation+xml	Aggregation	aggregation	info.textgrid.lab.core.aggregations.ui.aggregationeditor	info.textgrid.lab.core.aggregations.ui
	text/tg.edition+tg.aggregation+xml	Edition	edition	info.textgrid.lab.core.aggregations.ui.aggregationeditor	info.textgrid.lab.core.aggregations.ui
	text/tg.collection+tg.aggregation+xml	Collection	collection	info.textgrid.lab.core.aggregations.ui.aggregationeditor	info.textgrid.lab.core.aggregations.ui
	text/tg.imex+xml	Import / Export Mapping	imex	info.textgrid.lab.core.importexport.importspec	info.textgrid.lab.core.importexport
	application/zip	ZIP Archive	zip	null	info.textgrid.lab.core.importexport
	text/tg.projectfile+xml	Project Configuration	.tgp	info.textgrid.lab.core.model.projectfile	info.textgrid.lab.core.model
	unknown/unknown	Unknown	tgo	null	info.textgrid.lab.core.model
	image/x-unknown	Image	null	null	info.textgrid.lab.core.model
	text/tg.work+xml	Work	work	null	info.textgrid.lab.core.model
	text/ttle	Text-Text-Link Object	tlo	info.textgrid.lab.ttle.texttextlink	info.textgrid.lab.ttle
	text/xml+xslt	XSLT Stylesheet	xsl	org.eclipse.wst.xml.core.xslsource	info.textgrid.lab.xsltssupport
	text/xsd+xml	XML Schema	xsd	org.eclipse.wst.xsd.core.xsdsource	info.textgrid.lab.core.application
	text/css	Cascading Stylesheet (CSS)	css	org.eclipse.core.runtime.text	info.textgrid.lab.core.application
	text/plain	Plain Text	txt	org.eclipse.core.runtime.text	info.textgrid.lab.core.application
	text/tg.workflow+xml	TextGrid Workflow Document	tgwf	org.eclipse.core.runtime.xml	info.textgrid.lab.workflow
	text/gwdl.workflow+xml	TextGrid Workflow Document (GWDL)	gwdl	org.eclipse.core.runtime.xml	info.textgrid.lab.workflow

	text/tg.servicedescription+xml	TextGrid Service Description	service	org.eclipse.core.runtime.xml	info.textgrid.lab.workflow
---	--------------------------------	------------------------------	---------	------------------------------	----------------------------

The table above has been generated automatically from the TextGridLab (nightly version): Hit Ctrl+3, type *Export Content Types*. In the save dialog, select *Confluence Wiki* as output format. You're advised to save the stuff to an empty directory since the tool will write out the icons as png files along the wiki file, and it will overwrite without asking.
