

1 Dynamic Help

In most views you will find a question mark icon to open the "Context Help". Alternatively, you can always open it via "Help > Dynamic Help" in the menu bar or by clicking on the "Help" symbol  in the toolbar. For example, the blue linked word "Help" in the [User Management View](#) leads you to information about handling role assignment. Additionally, the blue linked expression "Hints on Search" in the [Suche-Sicht](#) leads the user to a context-sensitive help.
