

# 1 Menu Bar of the Navigator View

Some functions essential for managing Projects and Objects can also be found in the menu bar under the item "File":

- Click "New Object" to create a TextGrid Object and "New Project" to create a TextGrid Project.
- Objects can be opened with "Open Object" but also with "Open URI". This identifier can also be copied with "Copy URI".
- Projects can be deactivated, reactivated or deleted by users who have the necessary [rights](#) to do so.
